VEGETATIO

the international journal of plant ecology

Contents Volume 117

Diversity, structure and dynamics of a gallery forest in central Brazil
J-M. Felfili 1–15

Vertical canopy structure of Dutch chalk grasslands in relation to their management
J. Mitchley & J.H. Willems 17–27

Prairie plant guilds: a multivariate analysis of prairie species based on ecological and morphological traits
K. Kindscher & P.V. Wells 29–50

Structure and regeneration of canopy species in an old-growth evergeen broad-leaved forest in Aya district, southwestern Japan
H. Tanouchi & S. Yamamoto 51–60

Vegetation differences caused by pine vole mound building in subalpine plant communities in the Spanish Pyrenees
D. Gómez-Garcia, C.E. Borghi & S.M. Giannoni 61–67

Patterns of species and community distributions related to environmental gradients in an arid tropical ecosystem
R.S. Patten & J.E. Ellis 69–79

The structure and dynamics of old-growth *Pinus sylvestris* (L.) stands in the Wigry National Park, north-eastern Poland
T. Andrzejczyk & B. Brzeziecki 81–94

The use of the deductive method of syntaxonomic classification in the system of vegetational units of the Braun-Blanquet approach
K. Kopecký, J. Dostálek & T. Frantík 95–112

A Modified-Whittaker nested vegetation sampling method
T.J. Stohlgren, M.B. Falkner & L.D. Schell 113–121

A comparative study of *Cistus ladanifer* shrublands in Extremadura (CW Spain) on the basis of woody species composition and cover
E. Núñez-Olivera, J. Martínez-Abaigar, J.C. Escudero & F. García-Novo 123–132

Variation in habitat factors and species composition of *Scorpidium scorpioides* communities in NW-Europe
A.M. Kooijman & V. Westhoff 133–150

An inverted latitudinal gradient of plant diversity in shallow depressions on Ivorian inselbergs
S. Porembski, G. Brown and W. Barthlott 151–163

Shrubland formations and associations in mediterranean-desert transitional zones of northwestern Baja California
M. Peinado, F. Alcaraz, J.L. Aguirre, J. Delgadillo & I. Aguado 165–179

Book reviews 181–187
